ANTI-TERGE MOISTURE & PROTECTIVE CREAM

Anti-Terge® Cream was originally developed in 1954. It was specially formulated for those who are exposed to detergent and frequent hand washing; thus the name **Anti-Terge®. Anti-Terge® Cream** is uniquely formulated to provide a protective moisturizer to allow your skin to re-hydrate. By reducing the evaporation of the skin's natural moisturizer, **Anti-Terge®** allows the skin to retain more of its own moisture.

Over the years, we have received thousands of complimentary letters and phone calls from our customers. Many of our customers have been using our product for over 30 years. We are excited to offer you that same opportunity of experiencing these positive results.
